**Subject:** THIS WEEK: Walk-in COVID vaccines on campus

### **A Message From the Special Assistant to the Chancellor for Public Health**

April 20, 2021

Dear Campus Community,

Spartanburg Regional Hospital has announced they will provide walk-in Pfizer COVID-19 vaccines for students, faculty and staff this week, April 19– April 23, at the University Readiness Center (URC) from 9 a.m. – 4 p.m.

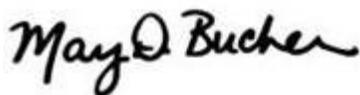

#### **COVID-19 Vaccine Walk-In Clinic, April 19-23**

- **Vaccine Brand:** Pfizer (Age 16 and up, egg-free and latex-free)
- **Location:** URC (University Readiness Center, 301 N. Campus Blvd, Spartanburg)
- **Time:** 9 a.m. – 4 p.m., open continuously
- No pre-registration or appointment needed, no cost, only photo ID needed
- Dose 1 given this week, Dose 2 will be due three weeks later (flexible days and locations, anywhere the Pfizer vaccine is available)

If you have not started your vaccine series for COVID-19, I encourage you to start today. Once fully vaccinated, you protect your health, your family and community, and if exposed, you do not have to quarantine for the time period set by public health officials. Enjoy your summer free from worry about changed plans, and the personal, financial, and academic disruption of COVID-19 illness and quarantine.

Make an educated choice for yourself, and review more information about the vaccines from the [CDC](https://www.cdc.gov). Also, Dr. Jane Kelly from DHEC gave an informative virtual presentation for campus about COVID-19 vaccinations on March 4, viewable [here](#). This workshop contains lots of useful information, including a question and answer session with students. If you have any additional questions regarding vaccine efficacy, safety, and benefits, you may contact Health Services at (864) 503-5191 and ask to speak with a clinician.

I hope you take advantage of this wonderful opportunity on campus today. The regular data update for the week will be posted Friday on the university [website](#).
