

Final Report Assessment Committee 5.3.19

The committee started the academic year with a combined training for the assessment committee members and program assessment coordinators (some served in both roles).

Thirty-one reports out of 35 programs were reviewed with an 88% turn in rate. Reports turned in received ratings of Adequate or Complete Implementation.

Committee members continued to use Sharepoint this year to review the reports. While there were a few issues for some people, the system worked smoothly for the majority of the reviewers. Dr. Pamela Steinke and Dr. Kimberly Walker met with the chair (Karen Lounsbury) and Andrew Beer several times during the year to review the program report procedure. This review of the committee's purpose and work will continue as we move forward.

Respectively submitted by Karen Lounsbury on May 3, 2019.
